426 99	Waterfull	WF-2-30HD	Waterfull Emergency H2O Drinking System	Waterfull 30 gallon emergency drinking water storage system. Heavy duty, ruggedized barrel is designed for commercial applications and is constructed of food-grade BPA-free plastic with added UV inhibitors. This patented system is easily installed between an ordinary outdoor water faucet and an ordinary garden hose. Use of the hose draws fresh water into the barrel, ensuring a regularly refreshed water supply. Includes a 4-foot food-grade hose to connect the barrel to the outdoor faucet. Multiple barrels can be linked together to increase the total storage capacity. Available in Brown, Gray, Red, Blue and Green.	USA	0	STND	\$561.31
426 99	Waterfull	WF-CONNECT-UPGRADE	Waterfull Connection Upgrade Kit	The Waterfull emergency drinking water storage system connection upgrade kit includes a heavy duty carbon filter, bronze pressure regulating valve and reinforced hose. The HydroLife HL-180 carbon filter reduces contaminants, removes sediments and odor, and improves taste. It has been tested and certified by TEI Analytical Laboratories against NSF/ANSI 42 for chlorine, taste and odor and NSF/ANSI 53 for lead. The rugged bronze pressure regulating valve protects the filter, hoses and barrel from excessive line pressure that could damage these items if left unchecked. The valve is certified to ASSE Standard 1003 and CSA Standard B356, is listed by IAPMO and ASSE and certified lead free to comply with NSF 372. Finally, the kit includes an upgraded 4 foot long hose with 3/4" FHT Inlet and 3/4" FHT Outlet. The hose is shielded with a stainless steel braiding to protect it from physical damage and is IAPMO listed to ASME A112.18.6 / CSA B125.6, NSF 372 for Low-Lead Compliance and NSF 61/9.
